### ⬅ Heating and Cooling

Daikin Aurora's lineup incorporates extreme ambient technology, designed to maintain high performance in extreme cold or hot climates, without the need for upsizing the condensing unit. Daikin's years of system manufacturing for extreme climates provided the experience to develop single-inverter compressor technology that maximizes performance in both high and low ambient conditions. This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort. [daikincomfort.com](http://daikincomfort.com)

### ⬅ Wood Love

Peacock Woodcraft has been manufacturing quality outdoor furniture since 1987. Located in Temagami Ontario, the company was the first dealer in Ontario to provide cottage owners with the unique Ez-Log structures in 2013. Peacock Woodcraft resells these kits and provides ice and water shields with all the kits, as well as engineering stamps for structures over 108 square feet. Add-on features such as screen kits for the front veranda are available and custom made at their factory. One of the products available exclusively to Peacock is the Peacock Loft Bunkie. This kit has a total of 183 square feet of living space including the loft. An optional detachable veranda adds another 75 square feet. This is all on a permit free 108 square foot footprint with no worries about restrictions, permit or expensive foundations. These buildings are perfect to transport to remote areas, and when you're done the outside looks great and the interior has that small log cabin look and feel.
